Why Germany Needs Geriatric Care Assistants

Germany faces a major demographic shift with a rapidly aging population.

23%+

Population above
65 years already

20,000+

Geriatric care assistants
needed every year

130,000+

Additional caregivers required
by 2030–2035

- ✓ Shortage of healthcare caregivers already exists across nursing homes and elder care institutions
- ✓ By 2050, millions more elderly citizens will require long-term care
- ✓ Geriatric Care is one of the most secure healthcare careers in Europe
- ✓ Program structure aligns with NCAHP (National Commission for Allied and Healthcare Professions) guidelines
